

Aerolite 1000 Series

Britax 2 Module Amber Light Bars

Part Number	Description
A6242.100.12V	12V Rotating Light Bar
A6242.200.12V	12V Rotating Light Bar with Illuminated Sign Plate
A6242.100.24V	24V Rotating Light Bar
A6242.200.24V	24V Rotating Light Bar with Illuminated Sign Plate
A6342.100.DV	Dual Voltage Xenon Light Bar
A6342.200.12V	Dual Voltage Xenon Light Bar with 12V Sign
A6342.200.24V	Dual Voltage Xenon Light Bar with 24V Sign
A6742.100.DV	Dual Voltage LED Light Bar
A6742.200.12V	Dual Voltage LED Light Bar with 12V Sign
A6742.200.24V	Dual Voltage LED Light Bar with 24V Sign

Description and Features

The popular 2 module 1250mm Aerolite LED light bars from Britax-PMG come with a range of options including Xenon and rotating with the voltages including 12 and 12 volts and dual voltage. This range comes with a polycarbonate lens, illuminated centre section and four bolt fixings as standard.

Dependent of the application this range can be altered to fit your specification including adding in illuminated sign plates to the centre section. The use of LED's ensures that each of the 2 modules has a high intensity double flash suitable for all conditions including low visibility. This range of light bars are ECE R65 and EMC approved and fit in with Whole Vehicle Type Approval.
