12/24V 3 Bolt Fixing LED Amber Beacon

Description and Features

12/24 volt three bolt fixing LED amber warning beacon designed for fitting to lift trucks, airport terminal trucks and a whole range of battery operated vehicles as well as utility and commercial vehicles.

10 x 3W high intensity diodes means increased brightness with this LED amber beacon with low power consumption and current draw. This beacon has an impact and UV resistant polycarbonate lens for increased durability and longer life. A selection of 11 flash patterns are available to choose from. ECE and EMC approved.

Dimensions: 142 (W) x 128 (H) mm.
