#### Description and Features

Brand new Rubbolite Model 782 range of two pod rear lamps with various function combinations available including fog and reverse, stop tail and indicator. This range can be fitted to trucks, trailers, agricultural, construction and military vehicles.

This new range of 782 lamps are designed to be hard wearing and withstand harsh conditions. Each unit has been hermetically sealed and come with a super sealed connector to ensure they are water proof. All wiring has been rated to IP68. This range is slimline to minimise the amount of replacements due to damage which is especially useful for military vehicles. Polycarbonate lens bonded to aluminium housing. EMC, ECE and ADR approved. Surface and panel mounting.
