16208	MAN TGL 220 Rear Wiring Harness	<p>Rear marker wiring harness kit designed to fit the MAN TGL 220 chassis. Each MAN wiring harness kit comes with two LED rear marker lamps, a specially manufactured T piece and a busbar.</p> <p>As standard all of our MAN wiring harness kits come IP rated to IP67. This stops any water or dirt ingress affecting the performance of the electrical wires housed within. All our connectors are supersealed and have been overmoulded to further prevent ingress. Our recommended LED rear markers are approved to conform with European Whole Vehicle Type Approval.</p>
