16222	Peugeot Wiring Harness Kit	<p>Full Peugeot wiring harness kit suitable for vehicles over 2090mm wide. This lighting kit comes complete with four side markers, two rear markers, two front markers, a high level stop lamp and a number plate lamp. All the lamps within this kit are LED. Kit also contains the relevant side marker looms, T pieces and extensions.</p> <p>All our Peugeot wiring harness kits have been IP rated to IP67 as a standard. A high IP rating means that water and dirt are blocked from affecting the performance of the electrical wires. All our connectors are supersealed and have been overmoulded to further prevent ingress. Our recommended LED rear markers are approved to conform with European Whole Vehicle Type Approval. Copies of approval documents are available upon request.</p>
